### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

In response to Applicant's argument that the double patenting rejection was improper, the Examiner agrees. Applicant states:

"In other words, the present divisional application was filed in order to pursue subject matter withdrawn from consideration in the parent application in view of the Examiner's Restriction Requirement of March 12, 2003. Therefore, in view of the above-quoted portion of 35 USC 121, it is submitted that the Examiner's double patenting rejection set forth in the outstanding Office Action is improper. Accordingly, the Examiner is respectfully requested to withdraw the double patenting rejection."

This is persuasive since the instant claims are to subject matter which was identified as patentably distinct. Note that a double patenting rejection would be proper if Applicant filed claims to the previously elected species of invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
